Director of Security
4E60 HQS

Attached are copies of reports which were furnished you earlier concerning the anti-CIA rally at Columbia University on 15 November 1966. Have you developed any information on these anti-CIA techniques as to whether they are organized on a nationwide basis or whether, in your opinion, they are separate isolated incidents?

MEMORANDUM FOR: Director of Personnel

SUBJECT : University Demonstrations Against CIA Recruiters

1. I reported to the Director at his Morning Meeting on the student demonstrations yesterday at Columbia and the University of Missouri. The Director was sympathetic and appreciated the problems caused to our recruiters as well as the DD/S&T and DD/I representatives. However, he was not deeply concerned at the apparent trend in student activity. He believes that we should continue to peck away at our recruiting efforts on college and university campuses doing what we can and where we can. He feels that the students will unquestionably tire of this activity.

2. While it may very well be a fad for students to demonstrate against CIA, I believe that you should continue to report such demonstrations and, indeed, analyze the totality of them to see if there is evidence to support the belief that this is a transient interest.
